

GREY FOX CONCEPTS

1/35 Camouflage Pole  
Support Kit  
**SKU: GFC350035**

**Description:** The Australian Defence Force Camouflage Pole Support Kit has been in service across the ADF since the 1970's. It is used to support camouflage nets, helping to conceal and break up the outline of various equipment and vehicles, including tracked and wheeled vehicles, tents, and other assets. The kits are often seen stowed on the tops and sides of vehicles for rapid deployment in the field. Including this kit will enhance the realism and authenticity of your model or diorama.

**Parts:**

- 16 × Tops (Mushrooms)

**Not Included:**

Poles are not included in the kit. These can be easily produced using plastic rod. Recommended dimensions are provided below.

Joiners are not included. Recommend using Tamiya tape to join the poles. Joiners were 5.5mm in length in 1/35

**Recommended Material:**

Evergreen Item No. 220– .035" (.8mm) OD White Polystyrene Rod (Product Code: 787026002200)

**Pole Dimensions in 1/35:**

- Long poles: 43 mm
- Short poles: 28.6 mm
- Pole Width: .96 mm

**Colour Guide:**

- Tops: Medium Green
- Joiners and poles: Olive Drab Lustreless

**Configuration:**

The configuration varies due to the height and number of poles needed for the assets to be concealed. Check your research.

**Image:**

Shown are Joiner, Cam Pole Top (Mushroom) Short and Long Poles.
